

Energy Savings Solutions presents:

Green Plumbing

The Intersection of Water and Energy Efficiency

Come to the first of a series of educational workshops about energy and water efficiency in Grass Valley, the Energy Savings Solutions series! In this informative and hands-on workshop, you will learn the basics of green plumbing design to optimize water and energy efficiency at the building scale. This workshop is relevant to homeowners and business owners alike. Workshop will be lead by Gary Klein, an energy conservation expert with 25 years of experience at the California Energy Commission.

RSVP by calling 530-588-3220 or on the Energy Savings Solutions FB Page

TUES, APRIL 2nd, 6:00-7:30pm
Grass Valley Courtyard Suites
